

Digital Learning Platform.

Made for the modern world.

eLab is a powerful tool with realistic simulations, video tutorials, and automated grading. It comes with instant course setup, LMS integration, and responsive support. And just when you thought it couldn't get any better.

SPEEDY SETUP

Hit the semester running.

Our Ready-to-Go courses are built to get you from planning to teaching as soon as possible.

- Pre-populated learning resources, exams, & assignments
- Cloud-based, no-installation-needed platform
- LMS integration
- Intuitive interface (so instructors and students can master the platform with little or no training)
- And, of course, free technical support

The student's Excel report is updated with feedback on any errors—right where they were made.

AUTOMATIC GRADING

Retire the red pen.

Spend less time grading and more time teaching. Our automatic project graders evaluate assignments and provide feedback to students instantly, all under your controlled settings. It's never been easier (or faster) to get meaningful results to students.

AUTOMATED ASSESSMENT

Custom just got convenient.

eLab makes the process of evaluating student work easier. Our prep exams contain realistic simulation questions that allow for multiple paths to completion. And our question banks are just like your students: brimming with potential. You can use them to customize tests, hand-selecting questions to fit your curriculum. Then, students receive detailed feedback in an instant.

"Coming from another publisher's materials, where I had numerous software issues that were never resolved, I love how responsive Labyrinth is. Until I worked with eLab's support, I didn't know there were people that responded so quickly in any technical support area."

-KATHY SHIMKETS, NORTHCENTRAL TECHNICAL COLLEGE

MULTIMEDIA CONTENT

More than pretty pictures.

Our solutions come equipped with video tutorials, animations, and web simulations to keep students engaged.

SEAMLESS INTEGRATION

Goes together like cookies and cream.

eLab lessons and resources are seamlessly integrated with Labyrinth materials. It's easy for students to follow along. It's easy for you to shape your curriculum. And it's easy for everyone to access their ebooks within eLab. Really, it's a win, win, double win.
